THE BIG THREE SUN SIGN / MOON SIGN / RISING SIGN

When you think about your zodiac sign, you're likely identifying your sun sign (*Pisces, Libra, etc.*) but it only gives you a vague sense of who you are. Think of it this way: Ryan Reynolds and Joaquin Phoenix are both Scorpios, but they're also wildly different. In order to get a more complete picture of your personality, you have to dive into Big Three astrology. Your Big Three refers to your sun, moon, and rising (or *ascendant*) placements on your natal chart. Examining your Big Three can give you more insight into your personality, the people you gel best with, your romantic needs, your motivations and more!
